Interest in beading and jewelry-making continues to grow. **Making Designer Jewelry with Hardware, Beads, and Gems** offers DIY crafters and jewelry-makers a fun, funky approach to jewelry constructed from not only glass beads, pearls, and semi-precious gemstones, but also shows how to incorporate simple stainless steel, aluminum, copper, brass and tin hardware, such as nuts, bolts, washers, and tubing, into stunning, innovative, and modern jewelry pieces.

Using hardware in jewelry has become popular, and features an aesthetic twist that mixes "high" and "low"—inexpensive and common metal hardware with favorite bead-store jewels.

Nicole Noelle Sherman (Charlottesville, VA) designs and creates jewelry in her studio in Free Union, Virginia. Her work grows out of a family tradition of art and architecture; her aesthetic exhibits complex patterns on a geometric structure with careful attention to detail. Nicole is also the author of *Making Designer Freshwater Pearl Jewelry*.
